

# Preschool Early Intervention Program

Under the supervision of Grace Talbot

## Who is it for?

**Children 2.5 – 4 years old** who are in need of intensive additional support before joining a mainstream nursery or school. Targeted Intensive support is provided by working with children in small groups with a high adult to child ratio.

Our multi disciplinary team consisting of highly qualified early years educators, speech therapists, occupational therapists and psychologists develop an Individual Educational Plan (IEP) for every child. This individualized approach allows for each child to reach their goals and flourish.

## What we work on?

We follow a holistic approach by taking all areas of child development and well being into consideration. We focus on the development of **social skills, play skills, self help skills, communication, listening and attention, self regulation and academic skills** such as **numeracy and literacy**.

## Dates and Timings:

January 5 to June 30, 2022

Sunday to Thursday
